

Pharmaceutical Services

Maintain GMP-Grade Hygiene, Safety & Power of
Your Facility

803.779.1961 | www.allegianceindustries.com | 105 Sunbelt Blvd. Columbia, SC 29205

Are your janitorial, security, and electrical vendors adhering to FDA, GDP, and GMP guidelines?

Do your current facility services providers align with your internal standards for cleanliness, energy efficiency, and compliance?

Is your janitorial service ensuring that your cleanrooms and entire facility are audit-ready and free of findings?

Allegiance Industries collaborates with numerous clients in the pharmaceutical industry, delivering janitorial, security, electrical, and specialized project services to uphold facility upkeep and compliance, complete with meticulous documentation processes.

WE'LL HANDLE THE PAPERWORK

At Allegiance, we understand the critical importance of documentation: 'If it isn't documented, it didn't happen.' That's why we take care of the cleaning validation paperwork and logbooks on your behalf. Our team assists clients in maintaining an effective cleaning process to ensure compliance with federal regulations set by the Food and Drug Administration (FDA).

The FDA mandates stringent levels of cleanliness and adherence to Good Documentation Practices (GDocP). This includes meticulous maintenance schedules in cleanrooms, requiring signature verification and annual reevaluation, utilizing military time stamps, European-style dates, and correct signatures.

COMPLETE FDA COMPLIANCE

At Allegiance, we understand that any failure to meet even the smallest FDA requirement can lead to extensive reviews and potential consequences. The FDA regards improper documentation as a minor finding, but multiple errors in records could result in significant fines for your organization. In severe cases, critical findings could lead to substantial fines or even facility shutdowns.

By partnering with Allegiance, you can rest assured that your facilities, including cleanrooms, are fully compliant. Our cleanroom technicians undergo rigorous training in Good Documentation Practices (GDocP) to ensure consistent, thorough, and proper cleaning protocols are followed at all times. With Allegiance, you have the peace of mind that your compliance needs are expertly handled.

AUDIT READY, YEAR-ROUND

Allegiance's commitment to audits is shown in our regular monthly inspections conducted by Regional Managers. Additionally, quarterly audits are performed by a member of the Allegiance Industries Executive Team. When facing an FDA audit, it's simply business as usual for the Allegiance Team.

Not only do we ensure that your paperwork is meticulously organized year-round, but our janitorial crews also uphold exceptional standards of cleanliness throughout your facilities. We prioritize recruiting and retaining quality team members by offering compensation rates 20-30% higher than our competitors. This strategy enables us to maintain low turnover rates and foster high employee morale.

Our crews are renowned for their consistency and reliability. They undergo comprehensive training tailored to the specific Statement of Work (SOW) of your facility, ensuring they deliver the same exceptional quality standards day after day. With Allegiance, you can trust in a consistently superior level of service.

SECURITY & ELECTRICAL SERVICES

Pharmaceutical companies value our consistent professionalism, which extends beyond janitorial services to encompass security and electrical contracting.

Our security services offer expert protection with both armed and unarmed guards, ensuring round-the-clock monitoring of your facility.

In addition, our electrical contracting services cover a wide range of needs, from routine maintenance to comprehensive repairs. Whether it's rewiring for build-outs, remodeling projects, or even handling high-voltage systems, our skilled technicians have you covered. With Allegiance, you can expect the same level of reliability and expertise across all our service offerings.

GET A COST ANALYSIS AND QUOTE TODAY

Our dedicated teams are fully committed to upholding the exacting standards of your facilities.
